PROFILE

Motivated BSCS undergraduate (8th semester) at Allama Iqbal Open University, passionate about full stack web engineering (Node.js, React.js, MongoDB) and machine learning. Experienced in building and deploying production-ready web applications for real clients, with a strong foundation in backend development, RESTful APIs, and data-driven solutions. Adept at working independently and in team environments with a problem-solving mindset.

EDUCATION

Allama Iqbal Open University <i>Bachelor of Science in Computer Science — 8th Semester (Ongoing)</i>	Islamabad, Pakistan 2022 – Present
IMCB I-10/1 <i>Higher Secondary School Certificate (HSSC)</i>	Islamabad, Pakistan Completed

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, HTML, CSS
Frameworks & Libraries: Node.js, Express.js, React.js, Flask, Socket.IO, PyTorch, OpenCV
Databases: MongoDB, MySQL
APIs & Auth: RESTful APIs, JWT Authentication, CORS
Tools & Platforms: Git, GitHub, VS Code, Postman, Pandas, Matplotlib
Soft Skills: Teamwork, Problem-solving, Communication, Client Management

PROJECTS

Real-time Chat App <i>Node.js, Express, Socket.IO</i> – Built a full-duplex real-time messaging application using WebSockets via Socket.IO. – Implemented room-based chat, user join/leave events, and live message broadcasting.	GitHub
Attendance Prediction ML Project <i>Python, Pandas, Prophet, Flask, MySQL</i> – Designed an end-to-end time-series ML pipeline using Facebook Prophet integrated with a Flask REST API. – Connected to a MySQL database for persistent data storage; achieved a prediction accuracy of 0.93.	GitHub
Subscription Tracker <i>Node.js, JWT, REST API</i> – Developed a secure Node.js REST API to manage and track user subscriptions with protected endpoints. – Implemented JWT-based authentication and role-based access control for multi-user support.	GitHub
Ecom Web App <i>React.js, Node.js, MongoDB</i> – Delivered a full-stack e-commerce solution for a client covering UI, API, database design, and cloud deployment. – Handled ongoing maintenance, feature updates, and client-driven requirements over 1 year.	GitHub
Floor Planner — Deep Learning <i>Python, PyTorch, OpenCV, Flask</i> – Developing a novel DL model for automated floor plan generation using PyTorch and OpenCV (in progress).	GitHub

PROFESSIONAL EXPERIENCE

Sales Officer — E-Commerce Operations <i>Online Business</i> – Managed online sales channels, customer interactions, and product listings across multiple platforms.	Rawalpindi, Pakistan 4 Years
Web Developer — Ecom Business <i>Freelance / Client Project</i> – Built, deployed, and maintained a full-stack web application from scratch based on client requirements. – Handled all post-launch responsibilities including bug fixes, feature additions, and performance improvements.	Rawalpindi, Pakistan 1 Year
